

Information and Leaflets

Via the work of its Technical Commission the ICDLI solves technical questions, works out the outstanding features of decorative laminates and provides valuable information to the manufacturers and processors of decorative laminates. Here you find the information data sheets the Technical Commission has published until now:

Position Paper

Position Paper Melamine: Health and Safety, November 2009

Position Paper Formaldehyde: Health and Safety, July 2015

Environmental Product Declaration

Background information Environmental Product Declaration 2017, November 2017

Technical Leaflets

Characteristics and Possibilities of Use for Decorative High Pressure Laminates (HPL),
December 2017

Cleaning of HPL surfaces, December 2017

Processing HPL compact laminates, June 2017

Compact formed Parts, June 2017

Multifunctional surfaces with HPL, May 2017

HPL in exterior application; July 2016

Technical characteristics and physical properties of HPL, December 2015

An Introduction to Manufacturing and Material Types, July 2015

Laboratory furnishings with HPL, December 2014

Product Data Sheet for HPL Composite Panels, August 2014

Product Data Sheet for High Pressure Laminates (HPL), August 2014

Guideline for CE marking, December 2013

Bonding and Processing of HPL on metal substrates, November 2013

Bonding and Processing of HPL on mineral substrates, November 2013

Gluing Table for High Pressure Laminates (HPL), May 2013

General recommendations for working with decorative laminates, December 2011

Fire behavior of decorative high pressure laminates (HPL), November 2009

Electrical properties of High Pressure Laminate (HPL), November, 2009

Chemical Resistance of Decorative High Pressure Laminates (HPL), December 2007
