# WE ARE THE EUROPEAN REPRESENTATIVE BODY OF HPL MANUFACTURERS

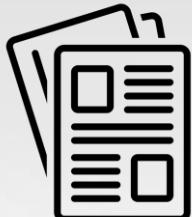

---

With 30 members from 14 countries ICDLI unites the manufacturers, suppliers and raw material producers of HPL and thus ensures a unique exchange of knowledge and ideas.

ICDLI seeks proactive interaction with relevant stakeholders from science, media, politics and the value chain with the aim of maintaining and expanding the competitiveness of the HPL industry in Europe.

ICDLI prepares and publishes technical leaflets and brochures, supports the European standardization work and offers seminars on the application and sustainability profile of HPL products.

By collecting, assessing and evaluating HPL market data, the ICDLI provides all the relevant data on the European HPL market – compactly edited and accompanied by explanatory texts and exclusively for members.

# ICDLI BODIES

---

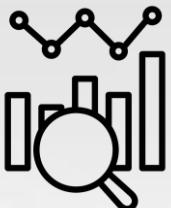

## Presidential Committee

The Presidential Committee is the leading body of the association. The team meets several times a year to exchange views on relevant industry topics, to determine the ICDLI's guiding principles and to update itself on key regulatory steps and take action.

## Technical Commission

The Technical Committee meets twice a year and produces and updates technical information on decorative laminates. The team also coordinates the work on the European laminate standard EN 438 and is responsible for the standardization work within CEN TC 249 WG 4.

## Market Research Group

The ICDLI's Market Research Group, which consists of market experts from member companies, meets several times a year and collects, reviews and analyzes figures and data on HPL market activity.

## PR Commission

Through targeted press and public relations work, the PR Commission actively contributes to promoting the image of decorative laminates.

# EUROPEAN HPL SUMMIT

- The meeting point for the industry, bringing together HPL manufacturers, representatives of the supply chain and industry experts from all over Europe.
- Two days lectures on the topics Design and Trends, Environment, Technics and more.
- Presentation of recent market analysis.
- Reports on the ICDLI PR-Committee and Technical Committee.
- High-ranking external speakers on top cross-industry topics.
- Exchange of information and experiences.
- Evening event and time for networking.

Evening event with networking dinner

# MANUFACTURER MEETING

- The Manufacturer Meeting brings together CEOs, managing directors and heads of business units from all over Europe.
- The meeting, organized by the ICDLI, takes place online once a year every spring.
- The participants exchange ideas about new trends in the HPL sector, information about regulatory requirements and association initiatives.
- The invitation of top-class speakers completes the program.

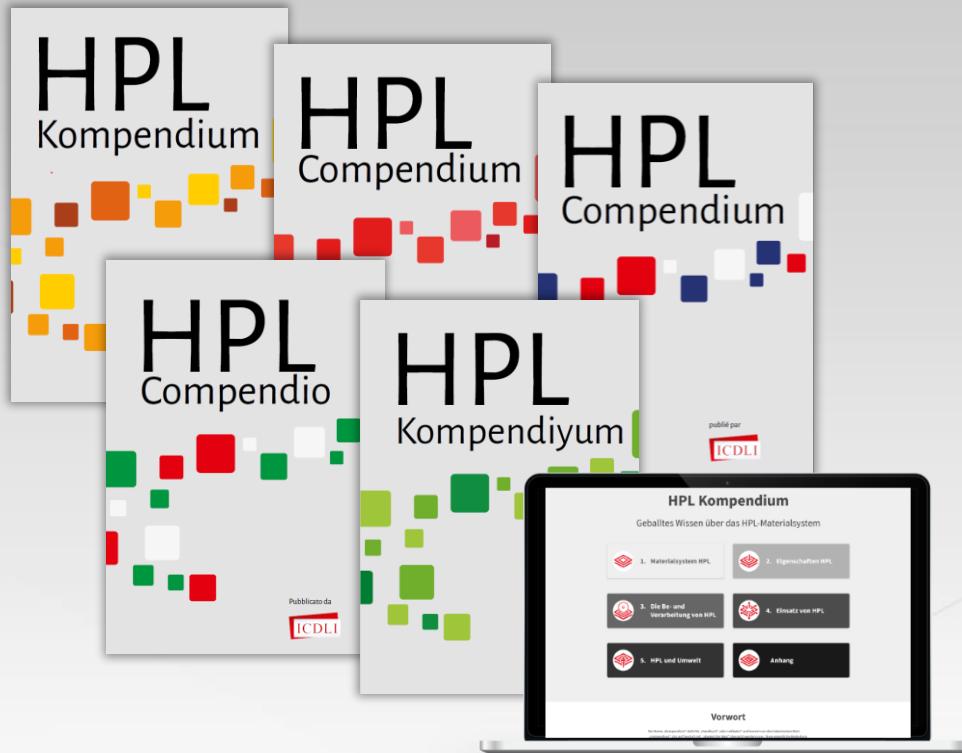

- We support young and experienced employees in the HPL industry through training formats tailored to the target group on a personal and content level.
- The HPL Academy aims to facilitate compact and clear access to comprehensive knowledge about HPL.
- The focus is on imparting, expanding and deepening knowledge of the HPL material system and its applications.
- We use best practice examples that can be found in the HPL industry and in all company sizes within it.

# HPL COMPENDIUM

- The reference book on HPL is a manufacturer-independent manual for manufacturing, processing and application of HPL, also covering environmental topics.
- The ICDLI Technical Committee has carefully collected expertise and experience from more than six decades.
- The HPL Compendium is a unique and detailed manual that covers over 170 pages.
- Target groups are new employees, customers, designers, architects, expert users and teachers.
- Available in English, German, French, Italian and Turkish.

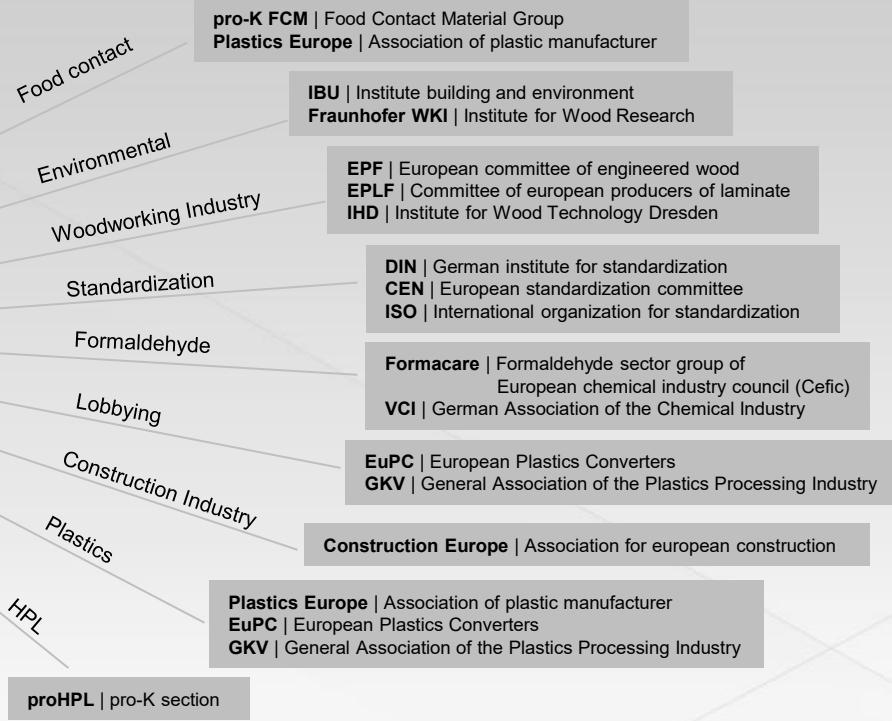

# ICDLI AT INTERZUM

- interzum is the leading international trade fair for furniture production and interior design.
- Every two years, the world's most important meeting place for the industry takes place in Cologne.
- Renowned exhibitors present their new products and a forward-looking event program ensures the perfect mix of information and networking.
- Our HPL booth offers the international trade fair public a wide variety of information on the performance properties of the material system, expert presentations and the work of the ICDLI.
- The booth is a key meeting point for ICDLI members.
